

IMAGES

AFTER THIS PRESENTATION

- You'll be able to handle images

ELEMENTS & ATTRIBUTES WE WILL LOOK AT

`` src attribute

width attribute

height attribute

IMAGES

Use `img` to bring an image into the web page

```

```

CONTROLLING THE EXACT SIZE

Add `width="number"` and `height="number"`

```

```

CONTROLLING SIZE WITH CORRECT RATIO

Use only one of width or height

```

```

CONTROLLING THE RELATIVE SIZE

Add `width="number%"` and `height="number%"`

```

```

The percentage value is relative to the thing which contains the image, which we call the *parent*
